Challenges

User Management

Remote Offices

Dropped Calls

Vendor Consolidation

We have employees in Argentina, staff in the Philippines—everyone around the world uses Dialpad as their business phone.

Reed Mollins, VP of Business Development

Features Deployed

- Voice
- Conferencing & Screen Sharing
- Messaging
- Google Apps for Work

By launching Dialpad, Doctor.com instantly freed its employees to work from anywhere, across any device. The company's sales team, armed with a reliable phone service, now makes 100+ outbound dials per day and closes deals without fear of dropped calls or missed connections.

Results

A better communications experience for calls, messages, and meetings.

With Dialpad, it's easy for Doctor.com's Executive, Client Services, and Sales teams to interface with prospects or clients. And thanks to the platform's HD call quality, remote staff can rely on Dialpad to make everyday communications simple and effortless.
